

“L” Shields & Barriers

Capintec “L” Bench Shields

Capintec “L” blocks provide effective radiation protection without a larger cost

Capintec has studied the working area in the Hot Lab and has designed an “L” shield that provides greater protection without a bigger price tag. The lead glass is of the highest density used in medicine (4.8 gm/c³) while not sacrificing optical quality. Capintec “L” Shields are provided with 1/4” lead glass, plus 1/4” clear glass to protect the lead glass from scratching during use. Additional thicknesses of glass are available, if required. The 1/4” lead shield is designed with a steel frame and base.

FEATURES

- 4.8 g/cm³ density lead. 14% greater protection than our competitor.
- Industry exclusive 1/4” clear glass to protect lead glass from scratching.
- Total Frontal shielding for safety (no plastic or particle board and no air gaps).
- The shields are painted with a high gloss epoxy paint, for easy cleaning.

Capintec Mini “L” Shield

The Mini “L” shield offers the greatest in flexibility of positioning. This smaller unit is perfect for those very small work areas where additional protection is required for temporary storage of syringes or vials. Excellent for remote stations where syringes must be filled or as an additional work station.

SPECIFICATIONS

- 12” w x 12”d x 16 3/4” h.
- 1/4” Lead glass.
- 1/4” Lead shielding.
- Optional Side shielding 1/4”
- Additional 1/4” Lead Glass
 - Additional 1/4” plain glass
- Weight: 35 lbs.

Capintec Standard “L” Shield

The Standard “L” shield is the favorite as a drawing station and as a storage shield for unit doses with easy access. Side shields or lead brick may be used to form walls when the Standard shield is used to store higher activity or for additional shielding. As seen in the inset, Capintec offers shields with lead greater than the standard 1/4” when working with afterloaders or PET products. (see PET section for more info.)

SPECIFICATIONS

- 18 1/2” w x 17 3/4” d x 26” h.
- 1/4” lead glass.
- 1/2” lead shielding.
- Optional Side Shield 1/4”
- Additional 1/4” Lead Glass
 - Additional 1/4” plain glass
- Weight: 100lbs

ITEM #	DESCRIPTION
5130-2086	Mini “L” Shield
1000-0207	Additional Lead Glass for Mini
1000-0208	Additional Plain Glass for Mini
7310-1302	Side Shields for Mini “L” Shield
5130-2090	Standard “L” Shield
1000-0211	Additional Lead Glass for Standard
1000-0209	Additional Plain Glass for Standard
7310-1305	Side Shields for Standard “L” Shield
