

Lead-Lined Cabinetry

Four Drawer Waste Storage Unit

Designed to do it all, the Four Drawer Waste Storage Unit has drawers to hold your radioactive sources and a large storage area for holding or decay of radioactive waste. With a 6 1/4" diameter port, a shielded lid in the work surface and a 7 gallon polyethylene waste can, this module is an efficient addition to your work area.

Design a complete system with multiple modules and include a seamless work surface to cover all modules at no extra cost.

Features

- Four drawers with easy-glide rollers
- Large waste storage cabinet
- 7 Gallon plastic waste can
- Choice of lead thickness (1/4", 1/2" or 1")
- Heavy gauge steel hinges for durability
- Heavy duty locks on drawers and doors for security
- Sleek stainless steel work area with a 4" backsplash and a 1/4" spill restricting lip
- Soft white, textured polyurethane enamel finish (other optional colors available)

Specifications

- Overall: 40" H x 36" W x 24 3/4" D (101.6 x 91.4 x 62.9 cm)
- Internal: 27" H x 20" W x 21" D (69.5 x 53.3 x 52.7 cm)
- Drawers: 4 1/4" H x 5 3/4" W x 15" D (11.4 x 14.6 x 38.1 cm)
- Waste Port: 6 1/4" Diameter (16.5 cm)
- Weights: 1,300 lbs. - 1/4" lead thickness, 2,200 lbs. - 1/2" lead thickness and 3,900 lbs. - 1" lead thickness

ITEM #	DESCRIPTION
5530-3051	Unit with 1/4" lead
5530-3052	Unit with 1/2" lead
5530-3053	Unit with 1" lead

Unit Dose Cabinet

Limited space? Not a problem with the Capintec Unit Dose Cabinet. Fully shielded with 2 cabinets and 3 drawers (2 small and 1 large) the user can organize sharps, radioactive sources and patient doses.

The left cabinet can hold up to 2 sharps containers, one active and one for decay. The right cabinet can hold a various items including radioactive sources, unit doses or waste for decay. The different sized drawers will provide ample space for storage of many items, such as QC sources, markers or other materials requiring shielding. Also, with the covered sharps ports built into the work surface, disposal of sharps and removal of containers is safe and easy.

All of the drawers and cabinets come with locks for added security and the counter top is stainless steel for an attractive low maintenance work surface.

Features

- Two cabinets
- Sharps port in work surface
- Three drawers (one large and two small)
- Heavy gauge steel hinges for durability
- Heavy duty locks on drawers and doors for security
- Easy-glide rollers on drawers
- Choice of lead thickness (1/4", 1/2" or 1")
- Sleek stainless steel work area with a 4" backsplash and a 1/4" spill restricting lip
- Soft white, textured polyurethane enamel finish (other optional colors available)

Specifications

- Overall: 40" H x 30 1/4" W x 24 3/4" D (101.6 x 77.5 x 62.9 cm)
- Waste Ports: 6 1/4" Diameter (16.5cm)
- Weights: 1,200 lbs. - 1/4" lead thickness, 2,000 lbs. - 1/2" lead thickness and 3,500 lbs. - 1" lead thickness
