

Forceps & Miscellaneous

Forceps

These sponge forceps are perfect for gripping vials rather than handling them with your hand. The serrated jaws and looped tip assure a solid grasp on the vial. The 9 1/2" length of these forceps reduces exposure. They are available straight or curved.

Utility Portable Lab Tray

This durable lab tray made of Nalgene® (high-density polyethylene for strength and ease of cleaning) is perfect when you must go to the patient to give an injection or draw blood. The tray measures 15" long by 13 3/4" wide by 4 3/8" deep. The molded handle in the center is placed high for stability. There is a center divider and inserts are supplied to help separate samples placed in the tray.

Cap-Tongs

CAP-TONGS were designed for use in Capintec's own facility to pick up vials. We now offer this simple device to you for use in your lab. The CAP-TONGS are made of aluminum with rubber tips for a positive grip on the vial. Standard length is 9" but longer lengths can be supplied.

ITEM #	DESCRIPTION
0645-0025	Straight 9 1/2" forceps
0645-0026	Curved 9 1/2" forceps
0660-0004	Collect-Tainer Hamper Stand
0652-0014	Utility Lab Tray
0645-0022	CAP-TONG 9" Forceps
0645-2029	CAP-TONG 18" Forceps

Big Digit Timer

Read Your Timed Studies Easily From Across the Room

This large screen small timer has two channels allowing one channel to count up and the other to act as a clock, or to display two count down channels. This permits timing two procedures of different lengths. Perfect for timing those critical kit preparation times.

The display is a full 3" wide by 2 1/2" high. The timer can be mounted on the wall, carried in a lab coat pocket or folded and placed on the bench top. It features a large start/stop button and a loud alarm.

Mechanical Timer/Alarm

The count-down timer/alarm requires no batteries or AC power. It is spring-powered and goes anywhere it's needed. Time intervals are from 15 seconds to 2 hours. Built for laboratory use, it is chemical resistant.

Corning® Hot Plate

This hot plate is perfect for heating sulfur colloid and other kits that require specific and constant temperatures.

Corning hot plates feature unique Pyroceram® glass ceramic tops that heat and cool evenly and quickly, and resist stains from corrosion, rust and scratching. Overhang design protects against accidental spills. Heat settings range from 65 to 510°C (149 to 950 °F).

ITEM #	DESCRIPTION
5250-0048	Big Digit Timer
5250-0049	Mechanical Timer/Alarm
0651-0009	Corning Hot Plate (120)
0651-0018	Corning Hot Plate (230)

Disposables & Lab Equipment

IV Stand

Every nuclear medicine department needs its own IV Stand. Capintec offers a 2 or 4 hook IV Stand rigid enough to hold intravenous fluids and infusion pumps. This stand is adjustable from 55" (139.7 cm) up to 95"(241.3 cm). Easy rolling casters allow effortless movement.

SPECIFICATIONS

- Height: adjustable from 55" (139.7 cm) up to 95"(241.3 cm)
- Chrome plated tubular steel for easy cleaning
- Heavy base offers stability
- Weight: 13.5 lbs (6.4 kg)

Injection Stand

This Injection Stand offers the patient and technologist a convenient way to stabilize the patient's arm in the correct and stable position for drawing blood or for injections. The Injection Stand unit is easily positioned and contains an instrument tray on which shielded syringes or vials may be placed. Easy rolling casters permit effortless movement.

SPECIFICATIONS

- Height 30" (76.2 cm) to 45" (114.3 cm)
- Chrome plated tubular steel for easy cleaning
- Heavy base offers stability
- Weight: 20.5 lbs (9.3 kg)

Instrument Stand

In many situations the technologist needs an extra hand. The Instrument Stand provides a convenient place for numerous small objects in order to have them available when needed. The stainless steel tray may be removed for easy cleaning. Capintec also offers absorbent tray liners elsewhere in this catalog.

SPECIFICATIONS

- Height: adjustable from 30" (76.2 cm) up to 50"(127 cm)
- Chrome-plated tubular steel for easy cleaning
- Heavy base offers stability
- Weight: 13.5 lbs (6.4 kg)

ITEM #	DESCRIPTION
0652-0006	IV Stand
0652-0007	Injection Stand
0652-0008	Instrument Stand

Absorbent Paper

To line all work surfaces, Capintec offers a highly absorbent paper. This consists of multi-ply embossed paper laminated to thin plastic for protection from bleed-through and strength. Supplied in rolls with perforated sheets for easy tearing in convenient pre-cut sheets, it soaks up spills without allowing liquid to penetrate and contaminate the surface below. Pre-cut sheets are available in the correct size for the fiberglass and stainless steel trays listed below.

Instrument Trays

Known as "Protective Tray" or "Splash Tray" Capintec offers instrument trays made from either fiberglass or stainless steel. Both materials are easy to decontaminate or clean. There are many sizes and lip heights available. The most popular sizes are listed below. If you require a special size for a special application, let us know. Absorbent paper to line these trays is described above.

Stainless Steel Lab Carts

The mobile stainless steel lab cart gets a lot of use in a nuclear medicine or X-ray department. Capintec offers a full line of carts. These sturdy carts are used to transport heavy or bulky shields or equipment from room to room or down the hall. The casters are hard, non-marking rubber for smooth and quiet movement on any floor surface. The number listed below is for a "standard" size. If you require other dimensions, please let us know.

High-Handle Step Stool

Increase your patient's safety when getting on or off an imaging or x-ray table, by using the high-handled step stool. This stool provides a strong and stationary step for patients due to its steel construction and non-skid foot covers. This item should be available in any room where a patient lies down on a table or stretcher. The step stool can also be used in laboratory applications

ITEM #	DESCRIPTION
0652-0001	Fiberglass Tray (14" x 18" x 7/8" deep)
0652-0002	Stainless Steel (19" x 12 ¹ / ₂ " x 3 ³ / ₄ " deep)
0652-0003	Stainless Steel (21" x 16 ¹ / ₄ " x 7/8" deep)
0652-0004	Stainless Steel Cart (19" x 31" x 33")
0652-0005	High-Handle Step Stool

ITEM #	DESCRIPTION
0651-0002	Absorbent Paper 300' x 20" roll (2 pack)
0651-0003	Absorbent Paper 15" x 32" sheet
0651-0004	Absorbent Paper 13" x 17" sheet (fits splash tray)(50/pk)
