

Nuclear Medicine Protection Barriers

Clear-pb® “L” Block Shields

This Clear-Pb table top “L” shield offers protection from gamma and beta radiation while providing complete visibility of the work area. The truly portable shield is rugged, shatter-resistant and is made from a lead impregnated polymer providing full working accessibility plus full protection of your face and upper body. The Clear-Pb Shields are offered as a Mini 12" (H) x 9" (W), Standard 18" (H) x 12" (W), or Jumbo 24" (H) x 15" (W) sizes.

Nuclide	I-125	Xe-133	Co-57	Tc-99	mI-123	Ga-67
Attenuation	99.9%	97.6%	99.8%	98%	99.5%	67%

FEATURES

- Totally clear and distortion-free for easy viewing
- Provides 1.5 mm lead equivalency
- Portable for use in many areas
- Available in three sizes

Nuclear Medicine Mobile Barrier

This easy-to-position shielding system gives clear visibility of patient while protecting the personnel. The CLEAR-Pb Mobile Barrier has a large shatter-resistant lead-plastic window (0.8 mm lead equiv.) which blocks nearly 90% of Tc-99m emissions. The lower panel is lined with lead to give full body protection.

The barrier is large enough to shield two persons at once. Heavy-duty, easy-glide casters allow the user to position in seconds.

FEATURES

- Provides shielding for patient emitted radiation
- Easy to position in a selected location
- Shatter-resistant CLEAR-Pb® window

SPECIFICATIONS

- CLEAR Pb Viewing panel 24" x 36"
- Opaque lower panel 34" high x 36" wide.
- Weight: 170 lbs.
